The Pastor Speaks

Not so many years ago, making New Year's resolutions was very popular, a serious matter for some while most joked about it. I have had a strange experience this year. I have not heard anyone engage in the seasonal exercise of making such resolutions. Neither have I seen the popular sentiments expressed by the news media.

Resolutions are a matter of assessing our life styles, getting rid of unhealthy or unnecessary habits and setting goals for the future. Resolutions require an openness and awareness of ourselves. Perhaps the lack of resolutions for the new year is really a reflection of our attitude that our lives are fine like they are. Our popular, sugar-coated psychology of seeing each other as OK, affirming each other's mediocrity, has led us away from the need for resolutions. Without the recognition of wrong there is no sense of need to correct it. Without the sense of our sin, there is no urge to admit guilt.

The first words of Jesus, proclaimed as his first sermon, spoke of a new age, urging his hearers to repent and become part of the new.

"The time if fulfilled, and the kingdom of God is at hand; repent, and believe in gospel." (Mark 1:15) Repentance requires resolution, a strong will to turn from selfishness, self-indulgence and self-justification and turn to love of God and neighbor.

Our resolutions are hopefully aimed at making the new year happy. Repentance as Jesus preached, opens us to the kingdom of God.

The Apostle Paul's resolve for life is stated in his letter to the Philippians: "..one thing I do, forgetting what lies behind and straining forward to what lies ahead, I press on toward the goal for the prize of the upward call of God in Christ Jesus. Let those of us who are mature be thus minded." (3:14f)

ASCS Today

COMMITTEE ELECTIONS - On December 20, 1976 the following farmers were elected to the County Committee for 1977: James R. Ford, Jr., Chairman, B. C. Massey, Vice-chairman, W. E. Bondurant, Jr., Regular member, W. D. Hix III, First Alternate, J. A. Martin, Second Alternate.

The Chairman, Vice-chairman and Regular Member will meet in the ASCS Office once a month to help administer the various ASCS programs throughout the year.

FEED GRAIN ALLOTMENT ANNOUNCED - a 1977 national feed grain allotment of 89 million acres has been announced by the U.S. Department of Agriculture (USDA). This figure is unchanged from 1976.

The national allotment represents the harvested acreage that will produce the quantity of corn, sorghum and barley USDA estimates the U. S. will use domestically and for export during the 1977-78 marketing year.

The national allotment does not represent a limit on the amount of feed grain that may be planted. It is used solely as a basis for making payments to producers should the market price fall below the established target prices or should growers qualify for disaster payments.

In 1976, producers, responding to the market place rather than the allotment, planted about 112 million acres of corn, sorghum and barley. USDA believes that in 1977 producers will again study prices and demand in planning their farming operations and therefore, the national allotment and actual acres planted may not coincide.

LAND CHANGES- Please help the ASCS office to keep our records up-to-date by reporting land changes, change of address and operator changes as they occur.
